

Dearest John:-

Kindly inform me whether you can attend to the Choir's picnic, in Jackson Park, on the Wooded Isles, next Saturday, about 5 o'clock, any way in time for supper. If you are not able, I do not care to go myself, in fact mother will not let me out alone.

To-night we were invited to Mr. Seaborn's home, on a little wedding gather, I guess, and there I got to know when it will occur.

How are you feeling this day?

7/25/86

I heard to-night that you boys  
went bathing again.

What did I say Sunday? If Johnny  
does not mind his honey, she will  
have to give him a good spanking.  
Now how would you like that?  
Anyway take good care.

It is best I do not write any <sup>more</sup>  
four page letters for some time,  
for maybe my boy will get tired of  
them.

Trusting that I may see my  
darling Saturday, I remain  
lovingly,  
J. J.

Your own

Excuse my  
stationary  
for it was the

best I have just  
now.

P.S.

I asked Leona Lockner, what her brother John was doing at the Western Electric, and she replied that he is a "Milling machine setter", whatever in the world that is, and works 5 nights a week, not including Saturday and Sunday. She said if he works during the day he would receive 25¢ an hour, and by working nights, he receives 75¢ more, which amounts to 30¢ an hour. I only asked what he does, but she told me the whole thing, and now I pass it on to you. For my part I ever think it would amount to the same.

by workings days, 6 days a week at  
25¢, or 5 nights at 30¢.

Excuse me John for saying this  
for it is none of my business, I  
but I only give my opinion.

Good night Ted.
