

June 30, 1970

Dear Mr. Larson,

Thank you very much for your kindness to send me copies of Illinois' history and the National Geographic Magazine. I have studied them eagerly. We have in this town a modern and well equipped museum called "The Emigrants' House" and some very qualified scientists attached to it. I have showed them the ABC-book.

One of Christina Holmquist's ~~grand~~ children, Mr. Albert Johansson, Skolgatan 13 Hembust, in reply to my letter writes that he doesn't think there ever was any photo of Travid Holmquist or his wife.

My trip to the U.S.A. has been postponed until September on behalf of my companion's illness.

Sincerely yours,

E. Härd
