Nov. 9, 1948

Hi Sugar,

Again, like yesterday, I have to use note-book paper. If I would write you evenings, this would not be necessary. But, whether evenings or afternoons, a day cannot pass without dropping a line to my little wife.

Right now I am sitting in the "stuge" waiting for Paul. He's down to eat dinner here together. Wish he'd hurry; I'm starved.

Have you ever heard of Rev. Leland Wong, an evangelist from China. A number of his children are & one studying at Wheaton. He was in Chapel this morning & now is sitting a couple of tables from me!

Starting, I've lost count on my letters again. Will you please inform me as to where I am? Such a hubbub you know!
Now to get down to answering
(over)

The letter I received yesterday.
There was no letter this morning.
About every half hour I have been
looking in my mail-box,
always hoping my delirium
will be cured by a letter
from my Honey. But no letter.

Mr. Clark did send the
stockings. I asked her to
send them via air mail;
but she forgot to. Hope you
receive them before you leave.
The stockings are new, of course.
But Clark washed them so
that they would look used.
That way the duty will not be
so high.

I get a big kick out of
wearing your ring. I have been
telling everyone that I've gotten
married. Then I show them the
ring for proof. Really, though, I
do give them the truth. What fun!

I don't expect too much of
Chicago, Sweetheart. Where I
live, it is sort of nice;
but the rest of the city is filthy.
I don't like it at all. What a
is much better. But where
we live in Chicago is nice. I
dislike the rest of the city so

much, I avoid travelling through it. Most American cities are not too good. Of course, parts of them are nice. Maybe when America becomes as old as Sweden, it will have cities as beautiful as Stockholm. Besides America is so large, it takes much longer for changes to occur here. But Chicago really does have sections that are very beautiful; you'll see.

Say, you better learn to make angel food cake. My two aunts sisters will teach you. They can make just like Mom did. My aunt is not a very good cook - not nearly as good as Mom was. Mom could make everything. Glad to hear you're doing so good with the rolls. I like home baking very much.

Paul just came; so must eat. See you later

My love,
Bernie XXOI
