

August 4, 1981

Just couldn't sign off without giving you some news that your father isn't up on. He was told that my father had gone back in the hospital briefly to find a new heart medicine. Well, they couldn't find one and the doctors recommended open heart surgery to remove the aneurysm in his heart and bypass one coronary artery. All this was done on July 22nd. We are expecting him home by the end of this week. He is still rather weak from nearly four weeks of hospitalization, but his breathing, circulation, kidney and liver functioning are all much improved, over what his condition was before the surgery. Of course, people have successful open heart surgery every day now, but not at 75. It has sure kept all of us very busy going to visit him in the hospital, which is why it took so long to finish this letter.

On a happier note, my sister Liz has bought a two-bedroom house in the Valley. I helped move her in Sunday. This will be quite a change for her since she's never lived anywhere where it could be so hot.

As for me, I am holding my breath until next month. I may soon be returning to my original profession as a teaching assistant at Camarillo State Hospital. The travel business is enjoyable in a lot of ways, but the wages are ridiculous low. I hope to be hearing from you soon.

Love,
Gene Kavanagh
